We are indebted to C. L. Poorman, Secretary of State, for valuable pamphlets of the election laws of this state and digest of the supervisor and ballot election laws of Ohio; with instructions and decisions.

A newspaper man who evidently believes in telling things just as they are, says: "Do not swear. There is no occasion to swear outside of a printing office. It is useful in proof reading and indispensable in getting forms to press, and has been known to assist in looking over the paper when it is printed, but otherwise it is a very disgusting habit."

There are a few people in the county who are desirous of making it appear that James Gibson is in favor of enforcing stone roads upon the people of the county, and are circulating this report among the farmers of Middleton township and other localities for the purpose of injuring Mr. Gibson politically. We do not believe that such reports will have any effect upon the intelligent Republican farmers in any part of the county.

Mr. Gibson, when elected, will have but one course to pursue in such matters. He must be governed by the laws of the State, no matter what may be his own private opinions.

That able Republican paper, the Ohio State Journal, has the following of the Republican candidate for Congress:

"During the ten years (1850-60) that Hon. J. M. Ashley was in Congress, he was one of the leaders in the House and stood at the front of legislation with Stevens, Boutwell, Julian, Blingham, Logan, Butler, Wilson and the great host of reconstruction leaders. During the exciting period of President Johnson's attempted impeachment in February, 1868, Congressman Ashley bore a conspicuous part and voted in favor of the impeachment resolution presented by that grand old commoner, Thad Stevens, making one of the 126 members of the House who desired to get rid of the usurper. The negative vote was 74. While a member of the House in the ten years of service he was four times chairman of the committee on territories and it was under his supervision that the territories of Arizona, Idaho and Montana were erected."

A Bowling Green correspondent of the Toledo Bee of Friday last, in speaking of the Congressional contest has the following to say of Gov. Ashley:

There is no love for Ashley in Wood county and the farmers particularly are very bitter against him.

The friends of Dr. Lincoln are still sore and while some of them will vote for the party nominee none of them will go out of their way to help him.

The above statement is false from first to last, and was only written for the purpose of bolstering up the hopes of some ambitious candidate who might be induced to accept the nomination on the Democratic ticket. Ashley will run ahead of his ticket in Wood county, and the farmers have no fault to find with his nomination and are not bitter against him, neither are the friends of Dr. Lincoln feeling sore over his defeat. He had a fair chance in the convention, and was supported by his county as long as there was any hope and is today working as hard for the election of Ashley as is any other man in the county. This correspondent would do his party more good by confining himself to the truth in his next letter.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Whatever difficulties existed in the mind of Wood county Republicans relating to the nomination of Mr. Ashley for Congress prior to the convention, have all disappeared now. The landable desire which influenced other prominent Republicans to obtain the nomination to Congress, has yielded to the will of the majority and both candidates and their supporters concede the strength and the popularity of Mr. Ashley. Those who had erringly regarded him as a Rip Van Winkle coming to life with a century's development ahead of him, have become better informed concerning him and have found by actual association with him that he is broad and comprehensive in his views and statements, and is fully abreast of the progress of the times. We may say still more, he is ahead of it in business energy, in political sagacity, and in comprehensive views for the betterment of the masses. His business enterprise received an illustration the other day in the launching of one of his steam barges for the transportation of 24 freight cars on its spacious decks at one trip, some 60 miles across lake Michigan thus transforming the waters of the lake into a connecting link by which the Ann Arbor railway becomes a grand trunk line in direct and continuous association freight cars may carry their loads from the Atlantic seaboard to the Northwestern States by the shortest unbroken route. If this is the politico-business Rip Van Winkle of which his antagonists speak, the Republican party, and all other parties need more of them in order to keep the rotten barges of the past ages afloat.

It will also be found that the man who has had the courage of his convictions in the support and triumph of anti-slavery views, has also the will and the capacity, for yet greater triumphs in view in the interests of labor, the unification of its members and the triumph of its cause. When in Congress one of his earliest moves will be to introduce a measure by which the conflict which now exists between the laborer and his employer may be averted, and the evils of strikes counteracted by the authority of a just and equitable system of arbitration under the auspices of National authority.

Last but not foremost of all practical measures of a local character is that of the improvement of the Maumee river in line with the city of Toledo and these up river towns, of Perryburg and Maumee and the historic battle grounds of the great Northwest—Fort Meigs. Just prior to the war Gov. Ashley became deeply interested in the consummation of this long desired National improvement. The war came and it was abandoned. At subsequent dates Ex-Prest Hayes, Chief Justice Waite, and numerous other prominent citizens have moved for its accomplishment, but there has not been a Representative of the District whose knowledge of the situation, and business tact seemed equal to the emergency by its accomplishment.

It is now well understood that in the Hon. James M. Ashley we have a representative whose wide experience, business capacity, and influence of character qualify him to do the work. It will therefore be well for the citizens of these up river towns to merge their political difference for once and unite in the support of Mr. Ashley for Congress, who can and will when elected obtain such help from the government as will result in making the improvement. It is time both for Perryburg and Maumee to unite and place the question of their local improvement in the front ground.

Of this we will speak more fully further on. In the mean while let citizens of all classes think on the subject, and then act decisively in supporting Mr. Ashley.

Mr. Howells will begin in the November COSMOPOLITAN, a department under the attractive title, "A Traveler from Altruria." Those who have seen the first two papers think they will equal in interest and in their wide appeal to all classes, the Breakfast Table Papers of Dr. Holmes. In order to give the necessary time to this work, Mr. Howells has turned over the detail editorial work to Mr. Walker.

There is no use of any one suffering with the cholera when Chamberlain's Colic, Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know.—W. H. Clinton, Helmetta, N. J. The epidemic at Helmetta was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This Remedy was used there with great success. For sale by A. R. Champney Druggist.

MASONIC HOME AT SPRINGFIELD.

The Corner Stone to be Laid October 19th.

On Wednesday, October 19th, the Ohio Grand Lodge of Masons will lay the corner-stone of the proposed Home for Aged and Indigent Masons, their wives, widows and orphans. The site located is in the outskirts of the city of Springfield; that enterprising city having donated a magnificent farm and eleven thousand dollars to the enterprise. It is expected that the grand parade, at two o'clock on the day selected, will include ten thousand Freemasons and Knights Templar. Springfield has an energetic local committee hard at work preparing for the great event, and from assurances received the attendance will be tremendous. Grand Master Levi C. Goodale, accompanied by the officers of the Grand Lodge will head the division of Master Masons, who have, of course, been placed in the position of honor.

The Grand Commander of Ohio Knights Templars, R. Em. Sir M. J. Houck, of Dayton, and his entire staff of officers will lead the Templar division, which it is expected will consist of all the prominent Commanderies in the State. Mt. Vernon, of Columbus, Cincinnati and Hanselmann, of Cincinnati, Reed, of Dayton, Toledo, of Toledo, Oriental, of Cleveland, Palestine, of Springfield, and other crack Templar corps will be there, accompanied by the finest bands in Ohio. The railroads have made a rate of one cent a mile for all representatives of Masonic bodies. All that is necessary is for Masons and their friends to make arrangements with their local railroad agents in accordance with the action of the Central Traffic Association.

The Ohio Masonic Home will be built of stone and brick, and when completed will represent an expenditure of one hundred and fifty thousand dollars. Work is progressing finely, and all will be ready for the laying of the corner-stone by the date assigned. The Masons of Ohio have long needed a Home such as they have in other states, and they may be proud and happy in having secured so lovely a site for it, as that near the banks of the lovely Mad river, near Springfield.

James Gibson, the Republican candidate for Commissioner of Wood county is quite sick at his home in LeMoyne.

There are now it is computed, over 250,000 words in the English language, or about 70,000 more than in the German, French, Spanish and Italian languages combined.

The Hartford (Conn.) Times, gives an account of the banquet of the Hartford County Medical association held in that city recently, and among the many short speeches we find in that of Dr. Parsons of Enfield, the following reference to Dr. H. A. Hamilton of Perryburg:

The country doctors are oftener than their city brethren called upon to decide alone and in the most important questions, questions of life and death, when there is no brother physician to call in consultation perhaps within five or six miles. In eulogizing some of the physicians of his section, Dr. Parsons spoke of one Enfield family, Hamilton by name, which has had twelve doctors in seven successive generations.

A reported outbreak of cholera at Helmetta N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by A. R. Champney Druggist.

LEWIS, COR. SUPERIOR & MADISON STS., TOLEDO, O

"Seeing is Believing."

And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either.

Look for this stamp—THE ROCHESTER. If the lamp dealer has not the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the Largest Lamp Store in the World.
